ROBERTS TORPEDO COMPANY.

MISCELLANEOUS.

TO ALL WHOM IT MAY CONCERN:

The following is, a brief summary of the RIGHTS AND CLAIRS OF THE RODERT TERFOO COMPANY, which rights they intend to enforce against all parties violating the same:

ing the rame:

The rights of said Company consist of three Patonia issued and granted by the United States to E. A. L. Roberts for explosion of Torpethees in all bearing rock, tog, ther with the assignment of six other Falents and other necessary of the exclusive right to the Nitro-Giyeerine and other powerful urplouve materials for the ness and purposes, in the other Patents sentioned.

In the various legal conflicts relating to the Patents shows mentioned, volumes of buildness, where been

above mentioned, volumes of twitmout have been taken and some of the best legal talent in the country had been employed in opposition to the Company, but ster a contest of over two years, a second state of the Universal States that Col. Reservant 10 first to the cover the practicability and invent the means of increasing the capacity of a wolls in the oil bearing rock by exploding Torpasses therein.

That sheep the organization of said Company, in order to protect their rights. (that been decemed necessary to commence said against soveral persons, among whom are Alexander Hamar, Albert E. Nickerson, and woney of the contest of the company of the contest of the c after a contest of over two years, it was decided by th

thom are Alexander Hamis, Albert as Frienrason, and cent & Moliner, (operators), and Senate & Parke, manafacturers.) That during the trial of said several ses, the pretended claim of William Reed and others relation to being the discoverers and first to apply orpeduce in oil wells, was fully investigated, and not illustanding the said pretended claim of Reed and

pedoes and the liberal patronage of the community, in order that all parties may avail themselves of them,

order that all parties may avail themsolves of them, this Company is prepared to farmlish Torpedoca at a price much less than heretofore.

While the Corapany do not count litigation they doesn't proper to place these facts before the public in order that innocent parties may not be led into difficulty by false statements of individuals, or circulars of Companies, who are pirating their right, as saits will be immediately brought against all persons, who, either use or purchase Torpedous of any except them or their authorized against, as their Patents cover the exclusive right to explode Torpedous in oil wells

After the expiration of the morning hour the special order, the Omnibus bill, so called, was taken up. The question was on the amendment.

taken up. The question was on the animument.

After some remarks by Mr. Sadisbury, Mr. Wilson's amendment to include Alabama, was agreed to—22 to 31.

Mr. Howard moved to amend sections 2 and 7, making it read as follows:

That if the time fixed for meetings of the Legislature of said States by the Constitution thereof shull have so nearly arrived before the passage of the nut that there shall not be time fixed by the Constitution of said State, such Legislature to assemble at the time fixed by the Constitution of said State, such Legislature shall couvene at the end of twenty days

it by law to assemble Amendment adopted.

Mr. Howard moved to amend third section to read as follows:

That the first section of the act aboil take effect as to each Settle, except Ceorgia, when such State shall by its Legislature duly ratify article 14th of the amendments of the Constitution of the United States and as the State of Georgia when it shall in addition give assent of said State to the fundamental could then hereinbefore improved upon the same. He explained that the section requires the issue of a proclamation by the President mouncing complance of the States with the nesbessay conditions before the State cut be admitted into Congress. He had no idea the President would vere issue any such proclamation, and therefore he proposed to dispense with it entirely and declare those States part faced replicated the thought corner between the fight amendment. Mr. Edmunds stid that point had been geomeloided the Committee had deel ded to the usual course be token of allowing the responsibility to remain with the President of Amononleng the result. Mr. Edmunds stid securical from Mr. Howard's opinion that the President of Amononleng the result of Edmunds dissented from Mr. Howard's opinion that the President would run no such risk when he was directed by law to I-sne it.

Mr. Howard replies ongested the purpose of Semators could be attained by leaving in the section the chuse making it the duty of the President to issue such proclamation of ratification.

Both Segators assented, and the amendment

The Herald prints a private letter of Judge Chase, in which he says he was not a partisan on alther side on the Impeachment trial. He says he shall adher to his old creed of equal rights. They may denounce and abuse me and read me out of the party if they choose; I follow my old lights, not the new. What the developments of the future may be I know not. I neither expet to resiste to be a candidate for office again, It would, however, gratify me exceedingly if the Democratic party would take ground which would assure the party against all attempts to subvert the principle of universal suffrage established in clyfit, and to be established in all of the Southern Constitutions. Then think the future of the great case for which I have labored as long would be secure, and I should not regret my absence from political labors.

—June is disgracing all its predecessors. Its accustomed sweetness and beauty have given place to surly stubborontess and depression. Once so lovely and inviting, with its wealth of flowers and saushine, now absolutely repulsive in the garb of mad and the chilly rains of November. But while we write, there is a ritt in the clouds through which the sun as hines forth in his glory; the leaden sky gives token of clearing of; gentic zephyra begin to zeph, and nature is getting ready for business. June is not so bad after all. The flowir buds unclose, and straightway the become services, and straightway the become business and try again to climb up to chamber windows, and look in where the county should be formed with Titusville as the each of justice. Laying saide aleish or local considerations, and looking solely to the laterests of the people of that region, it cannot be identically the constitution of the people of the region, it cannot be identically and the strength of the people of that region, it cannot be identically and post in the leader allows and look in a six given the constitution of the properties of the people of that region, it cannot be identically and content that of a right a New County should be formed with Titusville as the case of justice. Laying saide aleish or local text for the treatment of the count of the region of the treatment of the county. The said of the properties and look in the county is and properties. -Our old triend, C. C. Barker, for severa years a resident of Plumer, has suspended operations in the oil region for the present, and so moved to Oneida, N. Y. Mr. Barker has in company with Jarvis Lord, of Monroe county, ob tained a large contract on the Oswego, New and Midland Railroad. The contract extends from Oneida to Norwich, forty-six miles. The same gontlemen have also a heavy contract on the Onelda Lake Canal, under the State Board of Canal Commissioners. We congratulate friend Barker on these promising "strikes," and hope they will prove more remunerative than oil min ing. He ought in sheer gratitude to turn over new leaf, politically, and vote the Republican ticket.

3,151; Henderson, 2,126. We have no further returns. An effort was made to throw out the Tituaville votu, but

signally falled of success. Venango County Nominations.

We received the following telegram from Franklin at a late hour last evening:

Duncan is nominated for assembly by 427 ma ority; Myers for District Attorney by 215 ms ority; Herpst for Sheriff by 401 majority.

A Word for Titusville. From the Meadville Republican party was distincted by the action of the public of Thusville at the Primary Election and their atter disregar of the rules of the party, and their atter disregar of the rules of the party, and their chamistines is such that they do not appear to have any regard for the usages or propulaties of political or gaulation. Indeed, their local Jectonsies and selfalmess prompt them to break faith with their best friends, and the promises they make their best friends, and the promise they make their distincts from a county sent. They easiless to make their town a county sent. They From the Meadville Republican estiness to make their town a county sent. The forsook their true friends last year and supported Lowry, who for six years had sat in the Sea are and made an effort for their new county, an ite other day they voted almost maniformal against Mr. Beatty, simply because he did not done his time and eilorist exclusively to the holity last winter. He was their friend, and the new county bill had reached the House h would have supported it. But he could do mainly in the Senate, and they put their trust i Lowry, only to learn as we predicted, that h would niake a great form as we predicted, that h would niake a great form and surely cheat them would niake a greenmat, Mr. Beatty's friends supported Ames, with the assurance that Beatt would receive a handscane support in Titusviii. ess to make their town a county sent. The ported Ames, with the assurance that Beatiz would receive a bandsome support in Titusville When the votes are counted it is discovered that the friends of Beatty fulfilled their pledge, while Ittusville Republicans not only voted against Beatty, but drummed up nearly all the Cooper heads in their city to vote with them. Their conduct is not only disgraceful to the last degree but it is suicidal to their own interests. It is a surrege of truthle [a. Out, 1974] with some parter of truthle [a. Out, 1974] with some parter of truthle [a. Out, 1974]. but It is suicidal to their own interests. It is a source of trouble to our party, and, cooner or later, it persisted in, will prove disestrous. The ir leading politicians are cither a pack of political idiots, or so decidedly isonomaniless on the new county question, that they are the willing dupes of every office sucker who makes extravagant promises to citch their votes. They simply ren-der themselves ridications and contemptible with-out advancing in the silicitiest descent the

hey professedly hold so dear Fortunately Mr. Bentty is nominated by spite fortunately Mr. Bentty is nominated in split of their opposition; and in the face of their dis graceful truschery they discover that their owe home candidate was nominated chefty by the help of Beatty's titends. Their predictment is not enviable in any sense, but if the lesson will have the effect to develope a monety of cannon some, or a sense of honesty among them it will be fortunate for them, and the Republican party

The above from the Republican, does not our criticisms, it is not unmixed with impertinence the Lugislature and the people of Pennsylvania The Republican in the first place stutifies itsel and is grossly inconsistent in charging the Re publicans of this place with an atter disregard o the rules of the party, e.e., two years ago, for th Republican was foremost in the advocacy of the regularity o fMr. Fincey's nomination, a

the primary meetings in June, 1906. The Republican refers to the general desire and movement in this section for a New County in terms of contempt. It describes it as a "child ish upeasiness," a "hobby;" something, as i were, to be pitied, deployed or humored by ou been struck by lightning; since which time up | Meadville patcut. The chiter last winter paid us a visit, and on that occasion, volunteered a very liberal endorsement of our claims. In he usual trenchant style he then said :

"But the all absorbing topic with our neigh-bors is the New County. Situated as they are a County would rank with Warren fromity, an would embrace most of the best part of the of region,"

Is it to be wondered 'at that our fellow elt for those whom they suppose to be friendly to

That the pledges of Mr. Lowry on this point escured him the support of Titacville, is un. service in any line given."

true, that Mr. McCoy forfelted that support, be cause, much to the regret of hundreds of our party, who would have preferred him, he deem ad it impolitic or needless to commit himself, or to declare himself with equal explicitness on this question.

The Republican cannot believe that "any good can come out of Nazareth," or the Lowry can keep his word. But the record shows that our enator spared no effort to redeem his pledges A year ago Mr. Beatty came here, and asked our frages, and promised to aid us in obtaining the desired legislation. A popular Democrat and fellow townsman was pitted against him, and it required every kind of personal and party ap peal to persuade the Republicans to stick to the regular nominee. The course of Mr. Beatty last winter, was not such as to justify our confidence in the politician, or admiration for the non, and had we supposed he stood any chance for a re election, he could have been easily defeated, and commensurate efforts would have been put forth to that end.

The Republican speaks, of a bargain on the part of leading politicians here, to go for Beatty, &c. No one had any authority to make such a bargain for the Republicans of this city, nor the plower to consummate it. We have heretolore disclaimed, on behalf of the party, any part or sympathy with such a transaction ican may plie up epithets upon those whom it pleased to regard as our "leading politiciaus," but the question is not one of persons or parly the ties. It is a question which we agree with the Republican is a constant bone of contention, and sodes the dissolution of our party, unless it is settled soon. It cannot be evaded, postponed nor crushed out, but will come up in the same shape at every election, disorganizing the now dominant party until it has no honors or offices

Judge Chase.

Salmon P. Chase has been fortunate in form ing combinations for political purposes. Origi nally a democrat, but always an abolitionist, bi performent by that pro-slavery party, seemed ın impossibility. Be ident of the Buffalo Free Soil Convention, which gave him prominence, while the success of that ovement in defeating Mr. Cass for the Presi dency, made ti - prominent persons concerne in it of such importance, that they could not be ignored. That year the Legislature of Obio was obliged to cleet a United States Senator, but it so happened that the democratic and the Whig parties, each lucked two votes of a majority, se that neither party could elect its candidates. Two of the members were abolitionists. They held the balance of power and were not only the political, hus the personal friends of Mr. Chase These two men finally formed a coalition with the democrats and elected Chase to the Senate over Thomas Ewing, the Whig candidate, This was M. Chase's first political office. In 1855, Mr. Chase was able to form another coalition commons mainly of Whigs, with a portion of the Know Nothings, and a less number of Demociats, which elevated him to the second office, the Governor thip of Ohio. The reputation acquired in this two offices, gave him such prominence in the pation that he was naturally selected as a mem-ber of the Cabinet, by Mr. Lincoln, and at the decease of Chief Justice Taney, all eyes we turned towords Mr. Chase as the fittest occupant of that high position. Thus it will be seen that Mr. Chase is wholly indebted to skilful combinations of opposing elements, for the position he now occupies before the American people. Another, the third and last great coalition is now being attempted to clevate Mr. Chase to the lightst office in the land. He hopes to combine the Democrats and the negroes, the repudlators and the honest men-the Radicals and the rebel —the Union and the Confederate soldlers, into one great party sufficiently strong and harn ous in defeat Gen. Grant, and elect himself to the Presidency. It is not often that such a difficult mer combinations Mr. Chase's strength lay in the eact of his strict adherence to principle-an un swerving devotion to his convictions of the right-principle was lin citades. Now to se cure the present nomination he must surrender his principles for office, and the result will show that as a candidate for the copperheads, he like Sampson, shorn of his locks, divested of his strength, and doomed to ignominious defeat,

Caution to Cattle Owners.

Travel upon marly all our railroads is more c less endangered by the unbiwful practice of allawing horses and cattle, especially the latter, to accidents, attended with great loss of life, as we as heavy pecuniary damage to railrand compaules, have occurred from this reprehensible pracwhose object is to obtain a little pasture which

does not belong to them.

As a matter of importance to all concerned, we give below an extract from an opinion delivered by the late Chief Justice Gibson, of the Supreme Court, in the case of the Pennsylvania Rathrone Company vs. Skinner, 7 Harris, page 206

1. An owner of entile suffered to get at large and which are killed or injured on a railway, has no second see to the company or its servants; on the contrary, he may be liable for the damage done by them to the company or its passengers.

2 A railway company is a purchaser, in consideration of public accommodation and conve sideration of public accommodation and convenience, of the exclusive possession of the granus paid for to the proprietors of it, and of a license to use the greatest stiminable rate of speedy with which neither the person nor property may in terfere. No needless damage must be done GWHYCE.

3. The question as to whether the owner of the animal killed knew of its jeopardy, was not a material inquiry in the case. It is clear from this decision, that the owners of cattle which may be killed on railroads, as not only not entitled to damage, but are them selves responsible for the dansage done to par sengers and the property of the company. This fact, which may some day by brought home to the owners of such cattle, should have a contro

ling influence in the premises. We have heard, too, of several accidents of curring of persons-traveling in light vehicle being overthrown by- cattle lying in the roadand sustaining in One or two instances sever personal injury, the horse running away an next to rained, and the vehicle broken to pieces The owners of such cattle are undoubted:y liable to all the damage suffered, and we trust an example will be made of the responsible parts should another such accident occur.

THE FIRE DEPARTMENT .-- We have frequently irged the importance of the construction City Hall, for the city offices, Chambers for the Council and School Directors, and for public meetings. But, it is not simply as a depository of the public archives, and a piace for the train eaction of municipal business, that such a build ing is needed, but for the Fire Department. A good building for the engines and for the social

Judging from the frosh and fury of the Canadian press, and the active preparations of the Govern neut of the New Dominiqu, there is a general apprehension of another Penjan raid nerosa the order. Volunteers are drilling at every assall able point, and troops are being distributed in milicipation of a sudden layusion.

Whether there is really any serious design or the nart of the Femian organization to repeat the arcical performances of the past may be doubted. The leaders of the malcontents have a faculty of keeping the Canadians in constant fever and turmoil, as the only practical method of en

couraging the expectations of those who confide in their promises. But it is not at

all probable that the United States Gov ernment would permit any serious offensive movement, for however desirous the President might be to avail himself of such an occasion to enhance his own popularity and make capital for his party, he cannot and dare not permit an open violation of our neutrality laws, and being fully aware of what is threatened could find no possible excuse for allowing the organization and departure of armed troops from any point on the frontier. Large sums of money are no doubt being raised through the agency of fairs, and considerable money may be expended in the pur chase of arms and munitions of war, and then the
